## Analysis:

- Many pet owner apps lack robust features for comprehensive health monitoring beyond basic reminders for vaccinations or appointments. Features such as symptom tracking, dietary analysis, and integration with wearable devices for real-time health monitoring are often missing.
- Current pet owner apps often overlook the importance of behavioral insights.
- While some apps include social features, they often lack a strong sense of community engagement.

# CUSTOMER SEGMENT

- 1) Pet Owners
- 2) Veterinarians
- 3) Animal Welfare Advocates (Rescuers & Feeders)
- 4) Grooming & Training Business Services
- 5) Pet Boarding Services

# Customer interview questions

20 customers we interviewed from different segments. 10 pet owners, 3 veterinarians, 3 grooming service owners, 4 animal welfare associates.

1. **Pet Owners:** How do you currently seek information on pet healthcare, grooming, and training? Are there specific sources or platforms you find most helpful?
2. **Pet Owners:** Have you ever faced difficulties in finding accurate information about your pet's health or behavior online? Can you share an example?
3. **For Veterinarians/Pet Experts/Behaviourists/Trainers:**
  - How do you currently connect with pet owners, and what challenges do you face in offering your services online?
  - What features would you find most beneficial in a platform that aims to connect pet owners with certified veterinarians?
4. **For Pet-Friendly Business/Groomers:**
  - How do you currently connect with pet owners, and what opportunities do you see in collaborating with a pet care platform?
  - What features would you find beneficial in promoting your pet-friendly business through such a platform?
5. **For Animal Welfare Associates/Volunteers:** How do you currently organize animal rescue operations. What are your thoughts on a platform to interact about animal sterilization and rescue.

Pet Owners	<ul style="list-style-type: none"><li>● Difficulty finding reliable pet care services</li><li>● Lack of trustworthy information on pet healthcare</li><li>● Inadequate facilities for pet boarding services.</li><li>● Lack of personalized grooming and training options</li><li>● Expensive services</li><li>● 24/7 connectivity &amp; emergency services</li><li>● Pet Insurance/ Travel Insurance for pet</li></ul>	<ul style="list-style-type: none"><li>● Lack of centralized platform for comprehensive pet care, grooming from certified vets &amp; groomers.</li><li>● Subscription plan for recurring services</li></ul>
Veterinarians	<ul style="list-style-type: none"><li>● Time-consuming appointment scheduling</li></ul>	<ul style="list-style-type: none"><li>● Booking system for pet owners</li></ul>
Animal Welfare Advocates (Rescuers/Feeders)	<ul style="list-style-type: none"><li>● Limited resources for animal rescue and care</li><li>● Location and animal rescue search coordination issue</li></ul>	<ul style="list-style-type: none"><li>● Inadequate networking platforms for collaboration</li><li>● Lack of centralized database for rescued animals</li></ul>
Grooming & Training Services	<ul style="list-style-type: none"><li>● Targets social media like Facebook, Instagram, Whatsapp Business to promote their services.</li></ul>	<ul style="list-style-type: none"><li>● locate pet owners in one place to promote their services, rather than relying on social media platforms.</li></ul>
Pet Boarding Services		

# Platform Insights

- There's a need for a centralized platform that addresses the challenges faced by both pet owners and service providers.
- A digital solution offering easy access to veterinary services and information could bridge existing gaps in pet healthcare.
- Enhanced networking platforms for animal welfare advocates and rescuers could streamline rescue efforts and funding.
- Grooming and training services seekers require better online visibility and access to the target market.
- Pet boarding services could benefit from improved facilities and streamlined booking management systems.

# Empathy map

## Say

1. I want trustworthy services from certified vets
2. Easily connect with vet, groomers or trainers nearby
3. Help strays sterilization/adoption through a common network
4. Have issues with getting a shelter house for pets
5. Are there any recommendations from other pet owners about this grooming service.

## Think

1. Can I rely on this shelter house for my pet when I am away from home
2. I spend time researching on google to find reliable information about pet needs & behaviour
3. Which vet should I rely on for my dog/cat sterilization? Is he a good veterinarian.
4. Can I get an online consultation for my pet and do vaccination booking.

1. Speak to friends who have a pet to suggest for good vets & their fees
2. Join groups on Facebook/Whatsapp for guidance on pet issues and grooming services
3. Search on Justdial/Practo for finding vets.

1. Get frustrated in finding reliable pet care services
2. I wish there was a common platform that can cover all pet needs.
3. Feel good after helping a stray adoption as a CSR towards the society

## Do

## Feel

# User Persona - Pet Owner

## Demographic

**Name:** Riya

**Age:** 28

**Occupation:** Graphic Designer

**Location:** Mumbai, India

## Background:

Riya is a single professional living in a metropolitan city. She owns a playful Shih Tzu named Mochi. Riya is dedicated to providing the best care for Mochi and often seeks guidance on healthcare, grooming, and training to ensure Mochi's well-being.

## Goals and Pain Points:

**Goal:** Ensure Mochi's health, happiness, and socialization.

**Pain Points:** Limited time for grooming, occasional behavioral challenges.

## Platform Preferences:

- Appreciates expert advice on pet training and behavior.
- Values a user-friendly platform with quick access to certified services.

# User Persona - Animal Welfare Advocates (Rescuers/Feeders)

## Demographic

**Name:** Nisha

**Age:** 35

**Occupation:** Social Worker

**Location:** Kolkata, India

## Background:

Nisha is actively involved in rescuing and feeding stray animals in Kolkata. She is passionate about stray animal welfare and seeks a platform that can provide resources on rescue initiatives, sterilization, and connecting with like-minded advocates.

## Goals and Pain Points:

**Goal:** Improve the lives of stray animals through rescue and feeding.

**Pain Points:** Limited resources for sterilization programs, challenges in connecting with fellow advocates.

## Platform Preferences:

- Values a platform that highlights CSR initiatives and events.
- Seeks a community forum for collaboration with other advocates.

# User Persona - Veterinarian

## Demographic

**Name:** Dr. Vikram

**Age:** 40

**Occupation:** Veterinarian

**Location:** Bangalore, India

## Background:

Dr. Vikram is an experienced veterinarian passionate about animal health. He runs a veterinary clinic in Bangalore and values staying updated on the latest practices. He appreciates platforms that facilitate seamless communication with pet owners.

## Goals and Pain Points:

**Goal:** Provide excellent veterinary care and guidance.

**Pain Points:** Limited connectivity with pet owners, desire for **efficient** communication channels.

## Platform Preferences:

- Values a platform that facilitates virtual consultations.
- Appreciates educational resources to share with pet owners.

# User Persona - Grooming Service Owner

## Demographic

**Name:** Sonia

**Age:** 35

**Occupation:** Owner, "Pampered Paws Grooming Salon"

**Location:** Delhi, India

## Background:

Sonia is a seasoned grooming service owner with over a decade of experience in pet care. She owns a successful grooming salon in Delhi, known for its quality services and personalized care. Sonia is passionate about enhancing the well-being and appearance of pets through professional grooming and provides home services as well.

## Goals and Pain Points:

**Goal:** Expand her grooming business and reach a broader clientele.

## Pain Points:

- Marketing her grooming services effectively to attract new clients.
- Managing appointments and client communication efficiently.

## Platform Preferences:

- Access to a platform that connects her grooming service with a wider audience.
- Tools for managing appointments, customer feedback, and marketing strategies.
- Opportunities for professional development and networking within the grooming industry.

# User Persona - Shelter Manager/Pet Boarding Service

## Demographic

**Name:** Maya

**Age:** 45

**Occupation:** Shelter Manager

**Location:** Pune, India

## Background:

Maya manages an animal shelter in Pune that provides a safe haven for rescued animals and extends its services to pet owners looking for a reliable shelter while they are away. She wants to connect with Animal Lovers and pet owners to market her shelter house service.

## Goals and Pain Points:

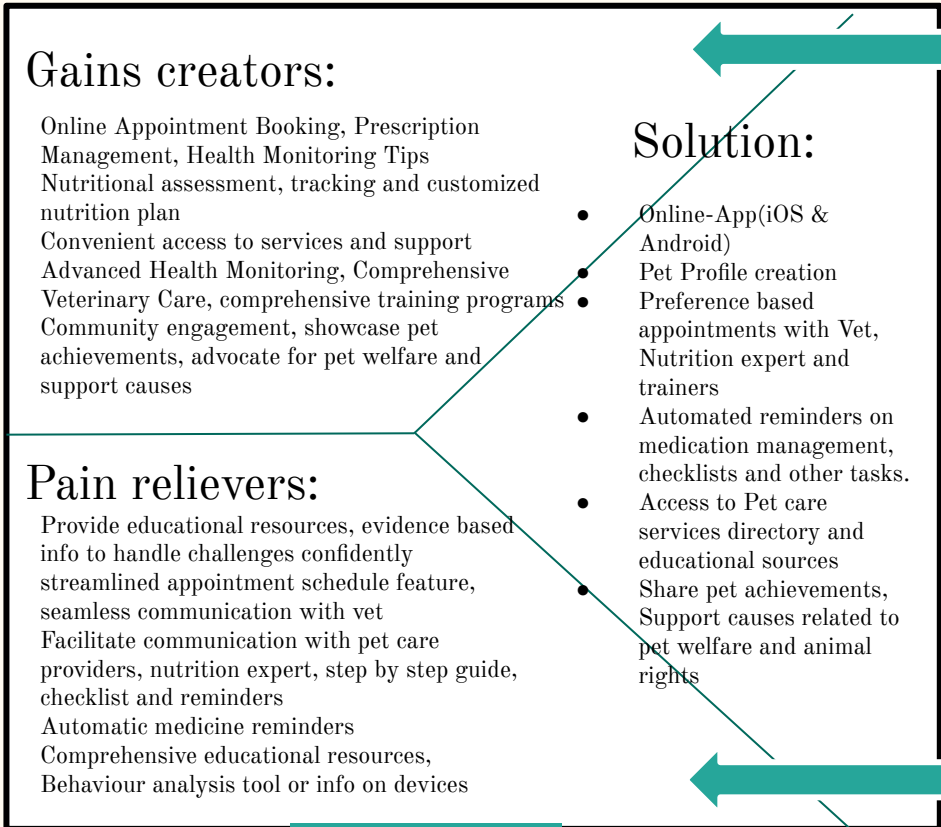

**Goal:** Facilitate adoptions, provide optimal care for shelter animals, and offer a trusted shelter service for pet owners when they are away from home.

**Pain Points:** Limited visibility for adoption events, challenges in managing the influx of pets during peak holiday seasons.

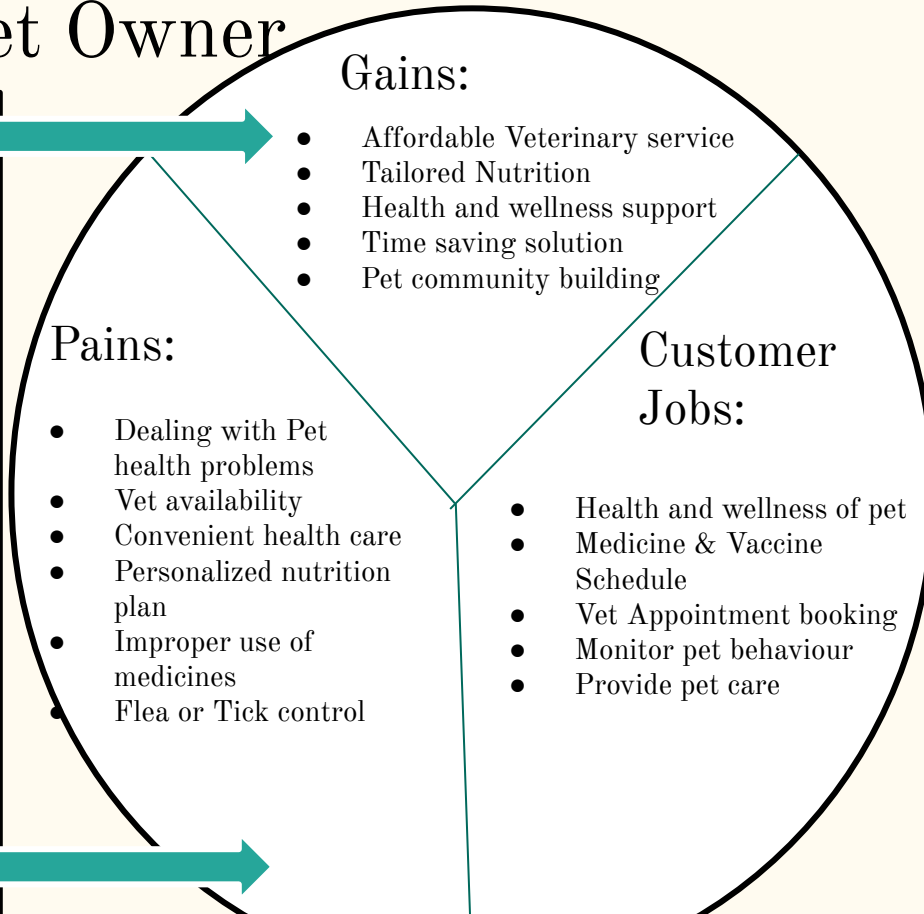

## Platform Preferences:

- Values a platform with a dedicated section for adoption and rescue.
- Seeks resources for shelter management, connecting with the community, and promoting the pet shelter service.

Customer Profile Map

# MVP Experiment

Solutions to most of the pains already exists in an unorganized fashion for Pet Owners. There are few companies who have organized the solutions to most of the pain points but we do not have a comprehensive list of pet care services at one place. PetSage India is one stop solution for all Pet Health and Wellness Services.

**Hypothesis statement:** We believe that a pet care website/app which provides personalized pet care services like Vet care, pet records, grooming service at home and customized subscription plan will help pet owners to maintain health and wellness of their pet in a cost effective way.

One pain point is that pet owners has to wait for long hours to get confirmation on vet appointment over call or online booking. They also face difficulty in finding reliable services. We have interviewed 10 pet owners and introduced the idea of a pet care service platform that could provide specialized veterinary care services on call or at home based on their preferred time and vet availability. No prototypes were shared, just the idea and 7 out of 10 said it's a useful feature and saves lot of time in getting required help at their convenient time.

Thankyou !
